Accident Policy Notice

- OMNI will submit to a patient's **own insurance** as a courtesy. If the patient was a passenger in a motor vehicle, we will bill the **owner's** insurance. The patient must provide the insurance name, billing address, insurance claim adjustor and accident claim number. If payment is not received within 30 days, payment in full is due from the patient or guardian.
- **OMNI does not bill third parties, or hold accounts for settlement.** Today many injuries are associated with legal action. **Financial responsibility to the doctor rests with the person who was injured and received treatment, NOT with the person who is being sued.** Therefore, you are personally responsible for all balances due regardless of the status of any legal action. We do not bill your attorney, or accept letters of protection from your attorney. Any patient that does not have, or chooses not to provide health insurance, will be considered self pay and fall under self-pay guidelines.
- **It is necessary for us to obtain health insurance information in order to comply with stipulated guidelines of your health insurance plan.** Services should always be "backed up" with insurance referrals and pre-certifications and scheduled with network providers, in the event the accident medpay exhausts.
- **MEDICARE IS THE SECONDARY PAYOR TO NO FAULT OR LIABILITY INSURANCE.** Health care professionals must attempt to collect from the liability carrier before billing Medicare. The patient must provide OMNI with the accident carrier's billing information.
